It is going to be Term 3 soon and our Class is still as motivated as ever! We will be learning about Identity and Values. Multiculturalism and the Australian way of life will be among some topics we will focus on.

The Super Six strategies are our favourite tools to use for better understanding when we read. We are studying a variety of texts including multimodal texts in keeping with the new Australian Curriculum.

This is a real buzzing time for our Maths! We are determined to take charge of our learning and focus on the language of Maths to work on word problems. We are also developing our skills in Working Mathematically on open ended problems.

Over and above that, we shall be preparing for our Primary Assembly item for Week 10. It is all a hush-hush surprise and you are all invited to come and watch us. Hope to see you there! 😊
